2033

Sunday Eve,
Augt 1. 1852

My Dear Jon

I enclose you the V. but I must beg you to remember that two V's make a W. that is ten dollars in two months, but as I have no reason to believe that you waste money I cheerfully comply with your wishes

I take it for granted that the new pants are necessary & you therefore have my permission to get them at

Thel^a under the direction
of Mr Brooks. - It is higher
that your understanding
should be well fitted up for
the commencement and as your
collegiate ~~race~~ race is nearly
run it will not do to neglect
the legs on the last heat
I hope to be there to see,"
and have no doubt but that
you will do honor to both
head & legs

I spent yesterday with
dear Harry at annapolis.
he is quite well, altho he
has received his first wound

in nautical affairs, by sprain-
-ing his foot, jumping off
of the wharf without bruising
the depth of the water. It will
teach him hereafter to look
before he leaps. The Midys are
all excited about the fish war
& Every Harry longs to have
a crack at John Bull
but they will be disappointed
as I take it for granted that
the two great nations are
not to do so scaly a thing
as to go to war for fish
and that too a cod fish

We expect to adjourn by the

first of September. Then hurried
for Scott & Graham in the
Jerrys. I have put you
some papers &c & I shall
expect a Scott very pain
you for the use of the
campaign

Give my love to
the Bishop. & with all
God bless you, your
your affectionate
Father

L. H. Miller

Thank the Bishop for his
most excellent & patriotic
speech of the 4th
